

# Trimble Laser Transmitters and Grade Control Systems for Water Management

Take control of water management and maximize yields

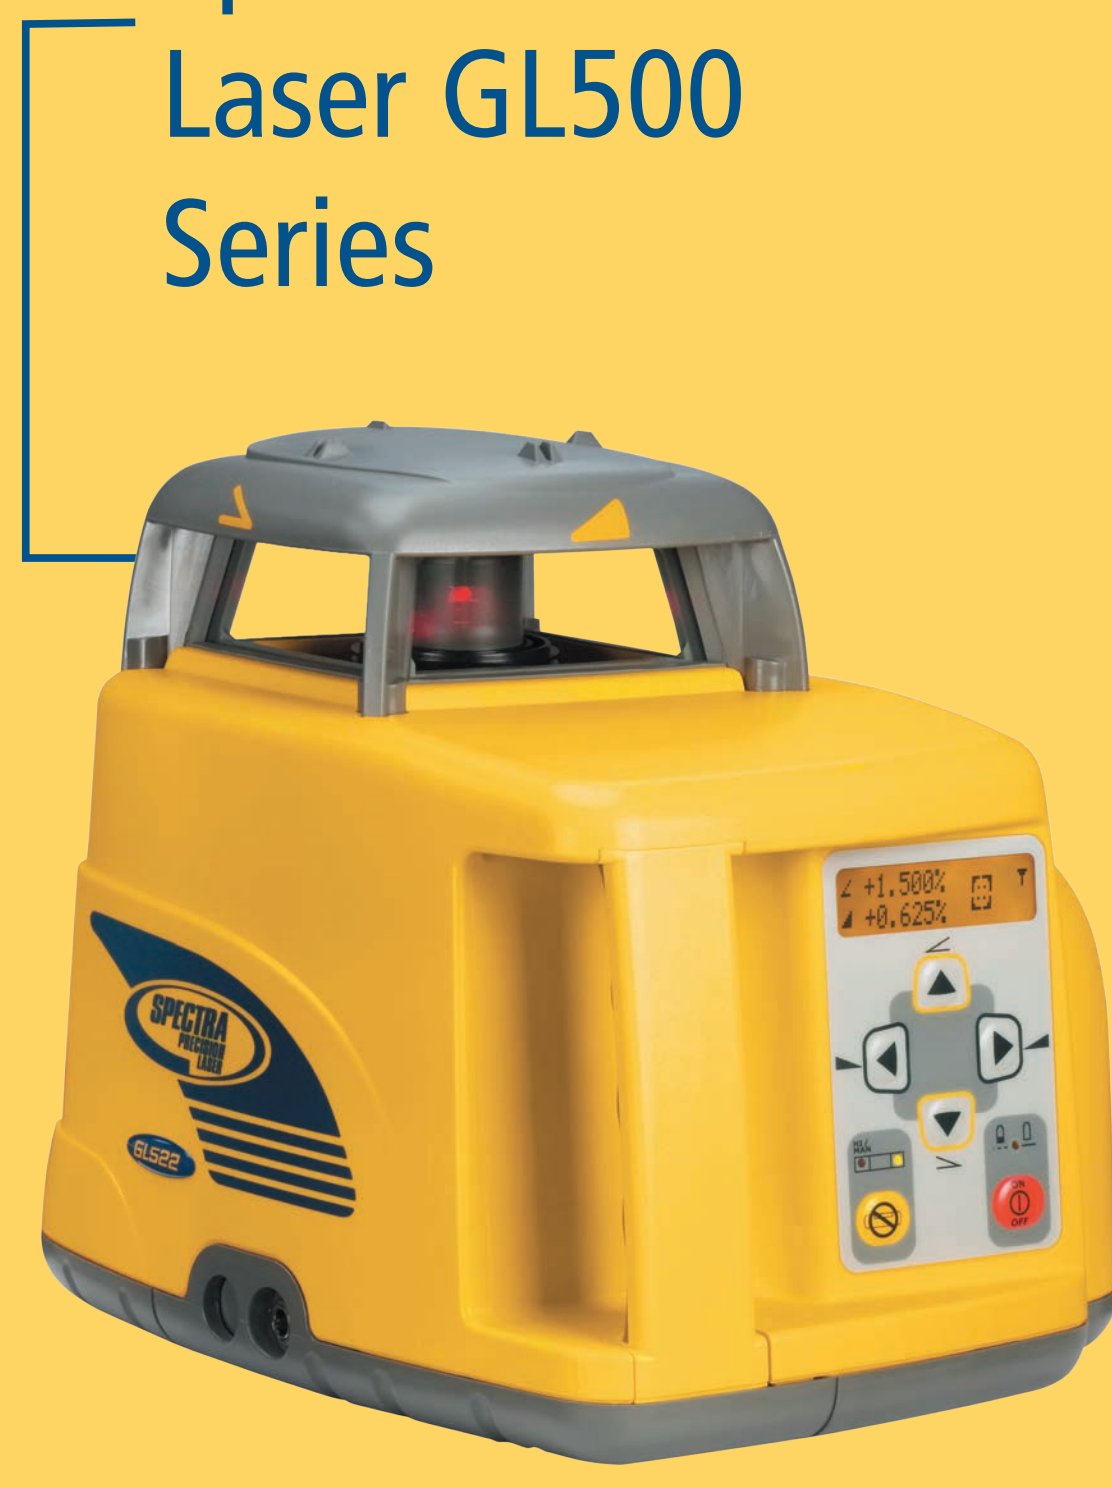

## Laser Transmitters

Spectra Precision® laser products from Trimble are rugged and durable, built tough, easy to set-up, and give dependable accuracy for all your drainage and land leveling projects.

Spectra Precision Laser GL700 Series

Spectra Precision Laser GL500 Series

Spectra Precision Laser AG401

## Grade Control Systems

Cost-effective, automated machine control systems that improve the productivity and accuracy of agricultural drainage and leveling equipment by up to 50%.
